

*The best high school experience for every student*

*The only coed Catholic high school on Cleveland's west side with the small, nurturing learning environment and personalized approach to teaching that results in educational excellence*

Elyria Catholic High School students graduate into an increasingly complex, competitive and challenging world. So we must prepare them for their futures, celebrating the unique gifts of each student and helping all become their very best selves. We believe that inspired students will find and pursue their own path to academic, athletic and extracurricular achievement, as well as social and spiritual development. That means offering rich, diverse academic opportunities for disciplined study by dedicated teachers in a small, nurturing learning environment, to fulfill individual intellectual potential.

*“ The impact which Elyria Catholic has had on my life could not be emphasized enough. EC prepared me not only academically, but socially and spiritually for my journey into college and beyond. I was taught how to study and prepare, but I was also taught how to connect to others on a social level and to expand my horizons wherever possible. EC taught me to push my growing edge and to always try to better myself both for my own benefit, and the benefit of others. ”*

**– Margaret Griffin '15**

*“ Elyria Catholic gave me the skills to be successful not only in my academic endeavors, but in all aspects of life. My experience with the faculty and staff and their never-ending support transformed me into a well-rounded individual with a strong set of values. I was pushed to be my best self, and I truly appreciate the education and encouragement that I received there. ”*

*“ I am very grateful of the opportunity that EC has provided me in helping to develop a heart for service and compassion to others, the discipline needed to persevere through and overcome challenges in life, and for the lifelong friendships/relationships which were formed, and continue to grow. ”*
